Northfield Mountain goes back in time to the Jurassic era. Discover the amazing world of dinosaurs in the Connecticut River Valley with Dan Vellone, professional geologist and regional expert on dinosaur tracks. Exploration stations, arts and crafts activities, tracks, real bones and more will provide both learning and entertainment. At noon, Mr. Vellone will give a 45 minute presentation exploring how the origins of dinosaurs are rooted right here in the Connecticut River Valley! Free tickets will be given for the noon presentation on a first come basis. Activities available both before and after the presentation. Bring a picnic or snack, enjoy our trails and make it a day for the whole family. This event is for children ages 4 – 12, all family members welcome. Children must be accompanied by an adult.

This is not a school-sponsored event.
